Title: The Silent Dawn

Author: MagicSilverWolf  
-----

Standing feet naked in  
the sand  
Peering into the darkness  
that shrouds the sea  
And her icy fingers touch  
me  
Sends her energy unto  
me  
There in the distance...  
there shines a light  
as subtle as it be  
It warms me  
It soothes me  
In one single heartthrob  
I knew it would all be  
done  
But in that same moment  
A new life begun  
Standing before the silent  
dawn
